## COMFORT INNOVATIONS

### VARIABLE-CAPACITY, INVERTER-CONTROLLED COMPRESSOR

Continually makes small adjustments in fan speed and cooling output to hold your temperature exactly where you want it.

### ICOMFORT®-ENABLED

Working with the iComfort® S30 Ultra Smart Thermostat, the XC25 adapts cooling settings to match your family's routine.

### HUMIDITY REMOVAL

The XC25 removes about 30% more humidity from the air than a conventional single-stage unit.\*\*, so your home's air feels light and cool during even the hottest summer months.

### CLIMATE IQ® TECHNOLOGY

The XC25 modifies cool air output based on the climate in your area, adjusting for everything from humidity to startup time. So no matter where you live, you'll live comfortably.

# PEACE AND QUIET

When the XC25 is running, you'll hardly hear it. Innovative SilentComfort™ technology combines thick insulation, vibration resistance and a specially shaped fan blade to greatly reduce sound levels.

50%  
quieter than a standard air conditioner\*\*\*

\*Efficiency claim based on comparison of air conditioning and heat pump products' SEER as published in AHRI (January 2015). Actual system combination efficiency may vary; consult AHRI for exact system efficiencies. Precision claim based on the cooling capacity range of the XC/XP25-036 units as compared to equivalent-sized competitive variable-capacity compressor units.

\*\*When used with a matching variable-speed air handler or variable-capacity furnace.

\*\*\*Sound Rating Number according to ANSI/AHRI Standard 270-2008. "SRN" is the overall A-Weighted Sound Power Level, (LWA), dB (100 Hz to 10,000 Hz). Sound information based on 3-ton models. Standard system is a 13ACX with a 76dB sound rating.
